## STONE SPECIALISTS

With over 40 years of experience in the stone industry, Claybrook specializes in combining the finest materials with an innovative approach to design and a truly British understanding of quality and craftsmanship.

From humble beginnings as stonemasons, to establishing our own stone processing facility, our dedication to craftsmanship remains at the heart of everything we do. Using our extensive knowledge of stone and its unique properties, we developed MarbleForm™. MarbleForm™ is an eco-conscious material made from reclaimed stone. At Claybrook we are committed to creating sustainable solutions and endeavour to minimize our environmental impact.

Trusted by renowned designers and prestigious hotel groups around the world, Claybrook's designs will truly elevate your interior.

# MARBLEFORM™

INNOVATION. SUSTAINABILITY.

MarbleForm™ is a sustainable material unique to Claybrook that was created to reimagine the possibilities of stonecraft. The impact we have on the environment matters to us, which is why we developed our specialized moulded stone technology.

MarbleForm™ is produced using reclaimed stone which is then combined with high-performance resin and colour pigments. Using the latest injection moulding techniques, we can form anything from classic bath and basin designs to custom pieces that were previously unimaginable.

ARTISANAL

Each piece hand-made and hand-polished to ensure a unique flawless finish

NATURAL

High level of natural recycled stone content

ECO-FRIENDLY

Low-impact production process

DURABLE

Tough, stain resistant, heat retentive, repairable

MARBLEFORM™ PRODUCTS LIMITED WARRANTY

Claybrook products are warranted to be free of defects in material and workmanship during normal use for a period of 5 years from the date of original purchase of the products.

Gloss reduction, scratching, staining and acidic or alkaline etching of the finish over time due to use, cleaning practices or water or atmospheric conditions, are not manufacturing defects but are indicative of normal wear and tear. This warranty applies to products installed worldwide according to recommended installation guidelines.

This warranty shall not apply to:

- Damage caused by accident, misuse, alterations, modifications, improper handling, or abuse.
- Installation, care, maintenance, and cleaning not in accordance with Claybrook procedures or guidelines.
- Minor variations in color, shading and dimension may result as it is a fully hand polished product which is mainly made of recycled stone mixed with resin.

In no event shall the liability of Claybrook exceed the purchase price of the product.

If you believe that you have a warranty claim, please contact your local Dealer, or write to Claybrook at [info@claybrookinteriors.com](mailto:info@claybrookinteriors.com) Please provide proof of purchase (original sales receipt) with all warranty claims.

MARBLEFORM™ PRODUCTS CARE & CLEANING GUIDE

MARBLEFORM™ is a sustainable, unique material that has been developed by Claybrook to reimagine the possibilities of stone crafting. MARBLEFORM™ products have a high content of natural stone which contributes to the organic nature and beauty of Claybrook products. The following care instructions are advised:

Cleaning:

After unpackaging and installing

- Clean the product with a soft white cotton cloth, clean water, and a gentle cleaning agent.

After daily use

- Rinse the products with fresh water and a soft white cotton cloth, be sure to dry your product after cleaning.
- Do not leave any substances or chemicals on the surface after use. Any chemical should be wiped clean and rinsed with water, and the product dried.
- MARBLEFORM™ has superior stain resistance, but it is recommended that bath or basin water containing additives (oils bath salts, dyes, etc.) are always drained and the product should be cleaned with warm fresh water immediately after use.
- If marks cannot be removed, use a non-abrasive mild cream cleaner and a soft white cloth. Always rinse any cleaning products off the bath or basin after use with fresh clean water and do not leave any substances and chemicals on the surface.
- Avoid spills and residue from acidic materials including food and beverages (e.g., juices, lemon, wine, etc.) or scented/ concentrated body care products. Be sure to wipe up spills as soon as they occur.

Fingerprints

Darker colors may be prone to fingerprints due to the darker outlook of the product.

- Claybrook supplies a nano cleaning sponge with our products. Use the sponge to dry wipe or use a mild, non-abrasive, cream cleaner to clean the area with water and a soft cloth. Rinse off the cleaning products with fresh warm water and then dry.

Maintenance:

- For more substantial or significant stains, you may apply acetone with a clean white cloth.
  - Should your product sustain minor scratches, more permanent stains or etching:
    - Initially use 400-grit sanding pad to wet sand the area of concern.
    - Then use 800-1200 grit sandpaper to wet sand the area for smoothening and making the surface even.
    - Rinse the area with water before applying acetone with a clean white cloth.
- Note:**  
Sand gently and avoid heavy sanding. Try sanding a small and less obvious area before applying on larger surface area.
- Follow the cleaning and care instructions (above) for regular use and avoid leaving cleaning cloths and towels on Claybrook products.
  - Depending on product use, a waterproof sealer can be applied to darker colors as part of a regular maintenance program. This will depend on individual use, and the sealer should be re-applied as required.

Special Notes for Dark Colors

- On dark colored products take extra care to avoid acidic and alkaline cleaning products. Products containing bleach should also be avoided.
- Soaps containing citric acid (such as scented soaps) should be avoided and always check the ingredient lists for these types of products.
- If using a soap dispenser, then a drip tray is recommended.
- In order to keep the optimum finish, on darker products we recommend applying waterproof sealer periodically as required.

If you experience stubborn staining or etching on the products, then follow the maintenance instructions advised above.

Caution:

- Do not use colored cloths or wipes that may leave permanent stains on the product.
- Do not use cleaning agents that contain acid, bleach, small particles, or abrasive powders.
- Do not use rough media such as brushes. They will damage the handcrafted surface of the products.
- Do not use perfumed soaps that contain citric acid. They may damage the handcrafted surface of the product.
- If using a soap dispenser, it is recommended to use a drip tray.

Please note that improper handling may void your product warranty. Please contact your local Dealer should you require any further information.

| 10 | As from the date when delivery is due to be taken by the Buyer the goods shall in every respect be at the Buyer's sole risk and the Buyer shall pay for the goods accordingly as if they have been delivered. The Buyer shall pay all warehouse rent, fire insurance and other charges whatsoever in respect thereof as from such date. If the Buyer shall fail to take delivery of the goods or any part thereof at the date or dates stipulated in the contract or implied therefrom the Company shall be at liberty to sell such goods or any part thereof either by public auction or by private contract for such prices they can obtain and the Buyer shall be liable to make good of all the damages which the Company may sustain in consequence of the Buyer's failure to take delivery of the goods or part thereof. All goods purchased under the terms of this contract shall be subject to availability and subject to acceptance of order by the manufacturers.                                                                                                                                                                       |
| 11 | Partial shipments are expressly allowed, and every part shipment shall be considered as a separate transaction. The time for making any shipment or part shipment is approximately only and the Buyer agree to allow a reasonable margin of time beyond the time specified for any particular shipment or part shipment. If dispatch, shipment or delivery of the goods or any part thereof shall be further delayed, prevented or prohibited for any cause whatsoever beyond the control of the Company, then at the Company's option either the contract or any unfulfilled part thereof may be cancelled or alternatively the time for delivery shall be extended until a reasonable time after the operation of any such cause or causes shall have ceased. If the contract or any part thereof shall be cancelled the Buyer shall accept and pay for any goods dispatched or shipped before the time of cancellation and the price to be paid by the Buyer shall be such proportion of the whole contract price as the part of the goods delivered, dispatched or shipped to the Buyer shall bear to the whole of the goods agreed to be sold. |
| 12 | The Company shall notify the Buyer by verbal message or in writing to their last known address of the approximate date when the goods concerned in this contract, or any part thereof, have been or are to be shipped. If the Buyer shall not have notified the Company of their refusal to take the goods, or part thereof, on the grounds of late shipment, being late shipment not covered by any extension capable of being claimed by the Company pursuant to the preceding clause, before such notification of intended or actual shipment shall have been given as aforesaid to the Company, then the time for shipment stated on the face of this contract shall be deemed to have been extended to the date of actual shipment and the Buyers shall be obliged to take up and pay for such goods as are shipped in the manner notified as aforesaid.                                                                                                                                                                                                                                                                                       |
| 13 | Notwithstanding the provisions mentioned in clauses 11 and 12 above, time shall not be of the essence of any contract for the sale of goods unless otherwise agreed in writing between the Company and the Buyer and the Company shall not be liable for any loss, direct or consequential, arising out of any failure for whatever reason to deliver by the approximate date. Late delivery shall not affect the obligation of the Buyer to pay the price.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 15(a) | The property of the goods shall not pass to the Buyer until the whole of the price has been paid, and until payment the Buyer shall hold the goods on trust for the Company.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 15(b) | The whole of the price shall not be treated as paid until any cheque, bill of exchange or other instrument of payment given by the Buyer has been met on presentation or otherwise honored in accordance with its terms. The Company may sue for the whole of the price at any time after it has become payable.                                                                                                                                                                                                                                                                                                                                                       |
| 15(c) | Payments shall be applied to invoices in the order in which they were issued and to goods in the order in which they are listed in invoices.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 15(d) | In the event of any sale or other disposition of the goods by the Buyer, the Buyer shall hold on trust for the Company:- (i) if the goods have not been mixed with or incorporated into other goods (or processed), the whole of the proceeds of sales; or (ii) if the goods have been mixed with or incorporated into other goods (or processed), a just proportion of the proceeds of sales.                                                                                                                                                                                                                                                                         |
| 15(e) | The Buyer shall not pledge the goods or documents of title thereto, or allow any lien to arise thereon, or process or deal with the goods other than in the ordinary course of the Buyer's business, and shall not hold itself out as the Company's agents in respect of them.                                                                                                                                                                                                                                                                                                                                                                                         |
| 15(f) | If the Buyer defaults in the punctual payment of any sum owing to the Company then the Company shall be entitled to the immediate return of all goods sold by the Company to the Buyer (or the documents of title thereto) in which the property has not passed to the Buyer, and the Buyer hereby authorizes the Company to recover the goods or documents and to enter any premises of the Buyer for that purpose. Demand for or recovery of the goods or documents by the Company shall not of itself discharge either the Buyer's liability to pay the whole of the price and take delivery of the goods or the Company's right to sue for the whole of the price. |
